

Sweater Styles for All Year Long

Sweaters are functional articles of clothing that provide warmth and style. Almost every wardrobe contains at least one sweater, usually consisting of a medium to heavy material. Wool is a common fibre choice because it is soft and supple, although silk and rayon knits have been gaining popularity in recent years. Sweaters are available in variety of colours, materials and styles, making them an ideal choice for any season. Sweaters are available in almost any type of neckline. V-necks are widespread choice among shoppers because they draw attention to the face and neck area without emitting too much sex appeal. One advantage of v-necks is that they are great for layering. Wearing shirts that vary in colour and detail underneath a v-neck keeps it looking fresh and current, regardless of age. Off-the-shoulder sweaters are a great complement to any season. By choosing the appropriate sleeve length, this type of sweater can accommodate any temperature. Like v-necks, off-the-shoulder sweaters show an acceptable amount of skin for work and otherwise. Once considered a garment best-suited to winter, cashmere sweaters are becoming a year-long alternative. These types of sweaters are often available as twin sets, consisting of a short-sleeved or tank top and cardigan. Twin sets are great for every season because they can be worn collectively or individually. Cashmere sweaters are also available in a variety of styles for men. Cardigans are perhaps the most practical addition to any wardrobe. They are available in solid, zippered and button-up styles, and in a countless number of colour choices. Cardigans can be added to any outfit for warmth, layering or comfort, making them a great option for traveling. Depending on the design, they can be used to dress up informal outfits or to add some casualness to more formal styles. When purchasing a sweater, sleeve length is often a major factor in the decision-making process. Short-sleeves are not just appropriate for summer because an extra, heavier type of garment can always be added for warmth. Likewise, long-sleeves are not limited to cooler months, especially those made of lightweight, breathable materials. For the days that fall in-between, 3/4th sleeves are the perfect alternative. They are also a great choice for anyone self-conscious about their upper arms. Sweaters are always a great investment because they never go out of style as quickly as other articles of clothing. Many sweaters are resilient to the ever-changing world of fashion, featuring basic designs that appeal to a wide range of ages and body types.
